

STATE

OF

AN INSTITUTION

Near York,

CALLED

THE RETREAT,

FOR THE TREATMENT OF

DISORDERS OF THE MIND.

York:

PRINTED BY HARGROVE, GAWTHOLT, AND HARGROVE,
STRAID-OFFICE, YORK.

1820.

ADVERTISEMENT.

THE Committee have taken the present opportunity, when there are several Vacancies at the new erection called THE LODGE, to put the same into a complete state for the reception of

PATIENTS OF THE HIGHER CLASS.

In consequence of this, and of other arrangements in the main building, the House could, at the present time, admit several Patients of this description, of *either sex*; in which they may be accommodated with distinct apartments and attendants: thus uniting the advantages of a private Establishment, with the benefits of this Institution.

A General Meeting
OF
DIRECTORS AND SUBSCRIBERS
TO
THE RETREAT,

Held at York, the 29th of 6th Month, 1820.

—♦—

THE Friends appointed in conjunction with the Committee of the Retreat, to examine the Accounts of the Institution, for the year ending the 31st of 2d month last, have presented the following statement.

IT APPEARS that the House Expenses, though less than in the preceding year, exceed the income from patients by the sum of £ 704. 0s. 1d. The continued support of the friends of the Establishment, by Donations and Annual Subscriptions, in almost every part of the Kingdom, has, however, nearly equalled this deficiency; and including the liberal Subscription of £1000. on which 5 per cent. is payable on certain Lives, the Institution will be seen to have considerably increased its property.

The apparent deficiency of the Annual Subscriptions in the present Report, compared with that of the previous year, arises, we believe, entirely from several of the Agents not having made up their Collections in time for the present statement. It is earnestly hoped that the Agents will not relax their kind exertions to promote this very desirable species of support*.

The Institution still remains subject to a Debt of £2770. 15s. 2d. and to the payment of £5. per cent. to Annuitants on the Sum of £4430.

During the last year, twelve Patients were admitted—eight were discharged, of whom six were recovered and two improved. Four Patients died, two of whom were eighty and upwards—one was seventy-seven, and the other forty-nine years of age. Two of these Patients had been about 24 years, and another 17 years in the House.

* The Agents are respectfully reminded, that the Accounts of the Institution are made up to the end of 3d Mo. in each year, and that the Annual Subscriptions are considered as due on the 1st of 1st Mo. :—Those, however, received up to the time of preparing this Report have been inserted in it, and those not yet sent, when received, will be inserted in the next Report as for last year.

There are now 61 Patients under care, viz. :—28 men and 33 women, of whom four men and seven women are at the Appendage.

The Committee have great satisfaction in believing that the judicious treatment of Insanity in this Institution, has already diminished the extent of this calamity in our Society. In this grateful opinion they feel themselves fully supported, by the following statement of the results of the cases, which have been under care, from its commencement to the end of the year 1819.

The great proportion of recoveries in the very recent cases, cannot but afford consolation to every reader, and points out forcibly, to the immediate friends of Patients, the importance of their being early placed under judicious care.

The total number of cases admitted into the Retreat from its opening in the year 1796, to the end of the year 1819, is TWO HUNDRED and FIFTY-THREE, which may be divided into five classes.

CLASS I. 47 in number, were cases of the first attack, and not exceeding 3 months duration, at the time of admission.

CLASS II. 45 were cases not exceeding 12 months and the first attack.

CLASS III. 34 were cases of not exceeding 12 months, but *not* the first attack.

CLASS IV. 48 were cases not exceeding two years duration, and the first attack.

CLASS V. 79 were cases of more than two years duration, many of from 15 to 20 years standing.

Of the FORTY-SEVEN in the first Class,

5^{*} have died
2 remain under care
40 have been discharged, recovered

Of the FORTY-FIVE in the second Class,

7 have died
8 remain under care
5 have been discharged, much improved
25 have been discharged, recovered

Of the THIRTY-FOUR in the third Class,

3 have died
6 remain under care
4 have been discharged, improved
21 have been discharged, recovered

* Of these 5 deaths, 3 occurred very shortly after admission, of diseases under which the patients laboured at the time, so as hardly to allow the opportunity of recovery. Hence the proportion cured in the most recent cases may be fairly rated at nine-tenths of the number admitted.

Of the FORTY-EIGHT in the fourth Class,

- 11 have died
- 2 have been taken away by their Friends
- 14 remain under care
- 9 have been discharged, improved
- 12 have been discharged, recovered

Of the SEVENTY-NINE in the fifth Class,

- 27 have died
- 2 have been discharged, by order of Committee
- 28 remain under care
- 8 have been discharged, improved
- 14 have been discharged, recovered

Signed by order of the Meeting,

SAML. TUKE.

MINUTE.

“ Our friend WILLIAM TUKE, who has served the office of *Treasurer* to this Institution from its first establishment, has this day, in consequence of his very advanced age and great decay of sight, tendered his resignation of the office. This Meeting, deeply sensible of his long and valuable services, accepts his resignation, and appoints SAMUEL TUKE his successor in that station.”

* NOTE.—Much pains has been taken to give this List of Names accurately. Errors have frequently arisen from Friends who kindly transmit the accounts, not being fully aware of the necessity of writing NAMES VERY PLAINLY; and that a hand-writing, which may be very good for common occasions, is sometimes quite unintelligible in recording Names with which a person is unacquainted.
